Colt Frankfurt West Data Centre

Global hyperscale capacity, delivered locally

Colt Frankfurt West Data Centre

Powered by 35MVA

Colt Frankfurt West Data Centre has 10,000m²
of secure resilient space.

Highly efficient carrier neutral data centre facility in Frankfurt

Colt Frankfurt West Data Centre is ideally located in
a commercial and industrial zone within Frankfurt as
well as being accessible from Frankfurt International
Airport and offers proven technology, resilience and
24/7 security.

This facility is located within seismic zone '0' (no
damage) and has excellent fibre connections with
a high concentration of fibre routes, ensuring you
have the scalability of connection flexibility.

Service excellence

- High level of reliability and resilience
- Consistent and efficient service delivery
- ITIL based service management methodology
- ISO 27001 and ISO 14001 certified

Our team is responsible for the entire mechanical
and electrical infrastructure at Colt Frankfurt West
Data Centre. This includes management of the data
halls, capacity management, security, energy
procurement and the programme of planned
preventative and corrective maintenance work.

**With a single point of contact, you can be sure
of the highest level of service to support your
data centre needs.**

In today's world, great businesses must be secure, resilient, scalable and above all - connected.

At Colt Data Centre Services this is our business. Colt Data Centre Services offers flexible and affordable colocation and IT infrastructure solutions. Our connectivity and colocation solutions allow our customers freedom to plan effectively for the growth of their business, knowing that their data centre strategy is future-proof.

We operate 24 state-of-the-art data centres across Europe and Asia Pacific, offering 24/7 security and local language support. We are connected to a further 530+ third party data centres across our network and are able to offer private links into the major public cloud providers.

Colt Data Centre Services has over 20 years' experience in designing, building and operating energy-efficient, reliable data centres - hosting significant financial, media, corporate and cloud wholesale providers across the world.
